## Why Build Your Own Birdhouse or Bird Feeder?

There are many reasons to build your own birdhouse or bird feeder. First, it's a fun and rewarding project that can be enjoyed by people of all ages. Second, it's a great way to attract birds to your backyard, where you can enjoy their beauty and songs. Third, it's a way to provide shelter and food for birds, which can help them to survive and thrive.

## What You'll Need to Get Started

To build your own birdhouse or bird feeder, you'll need a few basic materials and tools. Here's a list of what you'll need:

- Wood (cedar, redwood, or pine are all good choices)
- Nails or screws
- Hammer or drill
- Saw
- Measuring tape
- Pencil
- Sandpaper
- Paint or stain (optional)

### **Step-by-Step Instructions for Building a Birdhouse**

Once you have your materials and tools, you're ready to start building your birdhouse. Here are the step-by-step instructions:

1. Cut the wood to the following dimensions: - 2 pieces of wood for the front and back, each measuring 6 inches wide by 8 inches tall - 2 pieces of wood for the sides, each measuring 6 inches wide by 12 inches tall - 1 piece of wood for the roof, measuring 12 inches wide by 8 inches tall - 1 piece of wood for the base, measuring 12 inches wide by 6 inches deep 2.

Assemble the front and back pieces of wood by nailing or screwing them together at the top and bottom. 3. Attach the side pieces to the front and back pieces, again using nails or screws. 4. Nail or screw the roof piece to the top of the birdhouse. 5. Attach the base piece to the bottom of the birdhouse. 6. Sand the entire birdhouse smooth. 7. Paint or stain the

birdhouse, if desired. 8. Hang the birdhouse in a tree or other suitable location.

## **Step-by-Step Instructions for Building a Bird Feeder**

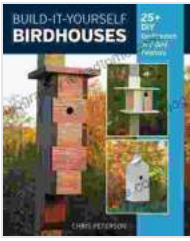

To build a bird feeder, you'll need the following materials and tools:

- Wood (cedar, redwood, or pine are all good choices)
- Nails or screws
- Hammer or drill
- Saw
- Measuring tape
- Pencil
- Sandpaper
- Paint or stain (optional)
- Hardware cloth (optional)

Here are the step-by-step instructions for building a bird feeder:

1. Cut the wood to the following dimensions: - 2 pieces of wood for the front and back, each measuring 6 inches wide by 8 inches tall - 2 pieces of wood for the sides, each measuring 6 inches wide by 12 inches tall - 1 piece of wood for the roof, measuring 12 inches wide by 8 inches tall - 1 piece of wood for the base, measuring 12 inches wide by 6 inches deep 2.
