If you are planning to design, build, or renovate a house for someone with a handicap or autism, this book is a must-read. It covers everything you need to know to create a safe, comfortable, and accessible home for your loved one.

The book starts with a discussion of the different types of disabilities that can affect home design. It then provides detailed guidance on how to choose the right location and floor plan, install accessible features, and create a safe and comfortable environment.

The book is written by a team of experts in the field of handicap and autism design. They have years of experience in designing and building homes for

people with disabilities, and they have a deep understanding of the unique needs of this population.

If you are planning to design, build, or renovate a house for someone with a handicap or autism, this book is an invaluable resource. It will help you create a home that is safe, comfortable, and accessible for your loved one.
