Print length	: 26 pages
Lending	: Enabled
Hardcover	: 941 pages
Item Weight	: 3.47 pounds
Dimensions	: 6.14 x 1.94 x 9.21 inches

The latest volume in the Lecture Notes in Electrical Engineering series, Volume III: Power Electronics Applications in Renewable Energy Systems, discusses the latest technologies and applications in the field of power electronics as they relate to renewable energy systems. This volume provides a comprehensive overview of the latest research and developments in the area, covering topics such as:

- Power electronics applications in solar energy systems
- Power electronics applications in wind energy systems

- Power electronics applications in biomass energy systems
- Power electronics applications in hybrid and micro-grid systems

With contributions from leading researchers and practitioners in the field, this volume is essential reading for anyone interested in the latest advances in power electronics applications for renewable energy systems.

Table of Contents

1. to Power Electronics for Renewable Energy Systems
2. Power Electronics Applications in Solar Energy Systems
3. Power Electronics Applications in Wind Energy Systems
4. Power Electronics Applications in Biomass Energy Systems
5. Power Electronics Applications in Hybrid and Micro-Grid Systems
6. Future Trends in Power Electronics for Renewable Energy Systems

About the Editors

Dr. Remus Teodorescu is a professor at the University of Nottingham, UK. He is the author of over 200 papers and 5 books in the field of power electronics. He is also the editor-in-chief of the IEEE Transactions on Industrial Electronics.

Dr. Marco Liserre is a professor at the University of Padova, Italy. He is the author of over 150 papers and 3 books in the field of power electronics. He is also the associate editor of the IEEE Transactions on Power Electronics.

Free Download Your Copy Today

Volume III: Lecture Notes in Electrical Engineering 499 is available for Free Download from the following retailers:

- Springer
- Our Book Library
- Barnes & Noble

We hope you enjoy this book! Please feel free to contact us with any questions or comments.

Sincerely,

The Editors
